PROFILE

Highly creative and motivated UX/UI Designer, specializing in the design and development of user-centric websites. Actively freelancing, I employ a specialized approach in UX/UI design, utilizing Figma for interface creation, and expertly handling WordPress (Elementor) and Shopify for full-site builds.

As a final-year Bachelor of Science in Information Technology student at the University of Technology Sydney, with a major in interaction design, I possess a deep understanding of user experience principles. Set to graduate in a next month, I excel at translating complex user and business needs into streamlined, engaging digital experiences.

CAREER GOALS

As a soon-to-be graduate in Information Technology (majoring in interaction design), I am eager to join an innovative web agency where I can apply my expertise in UX/UI design and web development. I aim to contribute by designing intuitive, user-centric digital experiences that enhance both functionality and aesthetics.

My experience with platforms like WordPress, Shopify, and Figma, combined with a strong foundation in problem-solving, teamwork, and communication, will allow me to bring a unique perspective and add value to projects focused on improving user engagement and efficiency. I'm committed to continuous learning of new design strategies as well as mastering the art of UX/UI.

WORK EXPERIENCE

UX/UI Designer (Self-Employed)

Echo Zenith - Bankstown, NSW Jan 2024 - Present

- Specialized in designing and developing user-centric websites, with a focus on UX/UI design using Figma.
- Expertly used WordPress platforms such as Elementor and BricksBuilder, as well as Shopify, to create and manage full-site builds that provide seamless online experiences.
- Collaborated closely with clients to understand their vision and requirements, transforming ideas into compelling design prototypes and final implementations.
- Conducted user research and usability testing to gather insights that inform and enhance design decisions, ensuring intuitive and effective user interfaces.
- Continuously optimized website designs for performance and accessibility, adhering to the latest web standards and best practices.
